AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: Q96949

Application No.: 10/591,715

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph no. 42 with the following amended paragraph:

Collector protection member 10 is 100 µm in thickens thickness and is made of PP

(polypropylene). Therefore, collector protection member 10 is flexible, and even if a force is

exerted on anode tab 4b from the outside and anode tab 4a abuts against collector protection

member 10, there is no case in which the abutted portion will be locally bent. Incidentally, the

material of collector protection member 10 is not limited to PP, and any material is available as

long as it is non-erosive with the electrolytic solution and is flexible.
